

Announcement

VALITEST training activities

on the concept of validation in Plant Health diagnostics

1st semester 2021

Note that due to the Covid-19 pandemic, the regional training workshops that were announced in July are cancelled.

The following on-line activities will be organized :

Three webinar series

- One on the concept of validation
- One on the organization of Test Performance Studies (TPS)
- One on the use and validation of High Throughput Sequencing (HTS) tests

Online practical training sessions

(for a limited number of participants)

- Analysis of the performance characteristics of a test
- Training and demonstration on the use of commercial kits
 - How to organize a TPS?
 - How to analyze the results of a TPS?
- How to use and validate a HTS test in my laboratory?
